a) Minor breach of the duty to notify

- Port User holds a valid combined-fee for the inland vessel (e.g. annual fee), notice of departure from the port area **received late**
- Port User holds a valid combined-fee for the inland vessel (e.g. annual fee), notice of departure from the port area **not submitted**
- Port User has not declared at all or not declared correctly on the ELBA portal the HPA-berths used by the inland vessel

b) Serious breach of the duty to notify

- Port User has not chosen a valid tariff, transmits notice of arrival **without information** concerning the desired **tariff** (tariff period of validity/validation date)
- Port User **has not** submitted any **notice**; is/was in the area **without** holding a **valid tariff**
- Port User has a valid City tariff or Saver tariff for the inland vessel, however, the vessel uses HPA-berths WITH land access although the Port User **has not applied for** extended HPA-berth fees (eALG) to cover the additional scope of use.
